Fixing details	Adjustable- inspection mirror can be swiveled and locked securely into required place
Lighting system	Lighting system comprising LED Light / Torch (3 Volt, 5 Watts) with adjustable mounting for focusing / Aligning with mirror is provided

## MIRROR

Mirror Type	Convex
Shape of mirror	Circular
Mirror size (cm) (Diameter in case of circular and length x width in case of rectangular)	27.94 dia

## TROLLEY DETAILS

No. of Wheels in the trolley (nos)	3
In case of adjustable / swivel type of	30 centimeter

fixing, Dia. of wheels of the trolley	
Material of Trolley Platform and telescopic rods and handle	Stainless Steel
Dia. of front wheels of the Trolley, In case of fixed type of fixing, (cm)	30centimeter
Material of Trolley Wheels	Poly Carbonate or Polyurethane
Dia. of rear wheels of the Trolley, In case of fixed type of fixing, (cm)	30 centimeter
Trolley Dimensions (cm)	30 centimeter
<b>TELESCOPIC RODS</b>	
Dimensions of different sections of telescopic rods	8FT
Adjustable length of the telescopic rods (cm)	50-120 cm
<b>CARRYING CASE</b>	
Wooden carry case	Wooden carry case made of 10 mm thick waterproof plywood duly clad with thermocol foam protection against rubbing & scratching of paint / coated surfaces is provided
